were employed. Thus the strike continues. Capt. Petty and two sections of the Fifth Precinct Police preserved comparative order throughout the day.

James Williams, a colored man who happened to be passing the scene of the excitement, was set upon by some of the strikers, and had to defend himself as best he could. James Burns, a white man, one of the strikers who had assaulted Wi liams, was arrested and taken before Justice Connelly at the Tombs Police Court, charged with having committed | N an assault upon Williams. Burns also made a charge against Williams. The result of which was that Williams was committed, and Burns discharged.

Mean time a large police force is kept in the neighborhood of the piers to prevent any demonstrasion against the public peace.

RUMORS DISCREDITED .- Advices from Barbadoe to the 28th ult., have been received in this city. per Orianda via Philadelphia, announcing the burning of a guane-laden ship off that place; and during the day, yesterday, rumor was busy in Wall street, paming the unfortunate vessel. Several of those who it was supposed would have been in and about that vicinity at that time were mensioned, such as the ship Regular from San Francisco, of and for Boston, the ships Aurora and Ella; the latter was at Sombrero at last dates loading guano. The Underwriters place no reliance in the reports.

PROBABLE HOMICIDE.-Coroner Farrell of Jerse PROBABLE HOMICIDE.—Coroner Farrell of Jersey City hold an inquest last night at Gerret Hogan's, in Pavodia evenue, Jersey City, upon the body of a young man named Wm. Daley, who was found in the water near the Eric Railway Depot, with marks of violence upon his person. The deceased was identified by his father, who testdes in North Adams, Mass. From the evidence, it appears that Daley belonged on the canal-hoat A. W. Cutter, which was 19 ing at the foot of Jay street New-York. Between 12 and 10 clock on the night of the 17th of January deceased, together with a man named Gee. Ritley, employed on the above-named boat, and also another man went into Hogan's pince, and while there Daley and Riley got into a fight. They were separated by man named Giesson when Daley went out. About 15 minutes afterward Giesson accompanied Riley down to the ferry, where they met Daley, and they agreed to settle the difficulty, and went on board of the best tog to New-York. The next morning, about 6 o'clock, Riley was seen by a brakemen in Pavonia avenue, Jersey City, without any nation, and his morning about o cloca, Kiey was seen by a brackman in Pavonia areone, Jersey City, whibut any hat en, and his face bloody, which was not the case when he left flogan's and went on board the ferry-boat.

The Jury rendered a verdict that Daley was found in the water at the Long Dock, with marks of violence on his person, and that he was less seen in company with fliley, with whom he had had a difficulty.

NOISES IN THE HEAD. DISEASES OF THE EYE, EAR AND

THROAT. CATARRH CURED

BT DR. VON EISENBERG. From The Journal of Commerce.

Exciting Naws FOR THE DRAF.-An Dr. Von Eisenberg's Air Passage Expander and Regulator, a gigantic machine, weighing nearly five hundred pounds, about five feet in hight, a most wonderful apparatus for restoring sight and hearing, has just arrived for Dr. Von Eisenberg, the celebrated Oculist and Aurist, and will be on exhibition at the Doctor's office. No. 816 Broadway, for a few days previous to its use. The instrument is constructed decidedly on the most scientific principles. To give a detailed description would require a greater space than we can now spare. Our Oculist these bland courtesies which coment the bonds of union is ion on a gigantic scale. The new instrument for restoring that it cannot fail to open the most obstructed air passages. His new consulting rooms, No. 816 Broadway, are correspondingly magnificent, and his practice as Aurist and Oculist large

\* From The New-York Evening Express, Feb. 14, 1863. Von Eisenberg, the far-famed Oculist and Aurist, of No. 816 Broadway, has made quite a sensation among the Doaf and Blind by his wonderful ourse, which attract the Deaf, Blind,

wonderful cures swells daily. For the benefit of sufferers, we submit the following, which requires no comment:

I have been completely deaf in one sar, and partially so in the other, for above seventeen year, with a disagreeable discharge from both ears, combined with continual rambling noise in the head for which I ave been treated by a most eminent practitioner in the city without the slightest relief.

I consulted Dr. Von Eisenberg to acknowledge that am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an univaled traveled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that fit in ot only superfor, but the principles which direct his mode of restoring the hearing are, in my opinion, certain.

No. 350 Pearlist, New York.

Naw-Yong, July 19, 1862.

This certifies that my mother has been for some time atfileted with partial desiness, suffering from pute and rumbing
noises in the head tegether with other indications of a total
loss of Acaring. Dr. Von Eisenberg removed from her ears a
great quantity of matter, together with congulated blood, relieving her instantaneously, and all without pdn. It is with
grateful thanks that I give this testimony to his skill.

CARROLL J. POST, No. 28 South-st.

J. E. Von Etanberg, M. D.—Dear Doctor: I have been afflicted with total desiness, and was induced to pay you a vist. No one can imagine my delight when, after one operation, my hearing was suddenly, and without pain, restored to me, for which I feel very grateful. After being totally deafmost shut out from the pleasure of using so necessary a sense—to have it returned, and to hear so distinctly, reflects great credit on you for the immease amount of sailly you possess. I beg to thank you for what I can so truly appreciate. I am, Sir, your obedient servant.

EDWARD TEMPLE HARRISON.

DR. VOX EISENNERG—Dear Sit: Before taking leave of you, after your most successful operation on my ear, allow me to express my sincer thanks that, by your scientific surgical performance, I am enabled to hear distinctly, and enjoy a pleasure of which I have long been deprived—over a year. May you be rewarded by being enabled to perform many similar, to benefit other sufferers, and to your own emolument. Allow me to present my kindest regards, and assure you of my grateful remembrance. Respectfully,

A. MCDONALD REYNOLDS,
